

# Kearney Fire & Rescue Protection District Implements The Compliance Engine

Brycer, LLC is pleased to announce that the Kearney Fire & Rescue Protection District has entered into an agreement with The Compliance Engine (TCE), a proactive compliance solution application and service. The Compliance Engine will help the Kearney Fire & Rescue Protection District reduce their time spent in administering fire code requirements, increase their ability to enforce and verify compliant fire protection systems, and strengthen the protection for its citizens and visitors.

The Compliance Engine (TCE) powered by Brycer is a web-based technology service and analytic suite that helps fire prevention bureaus proactively drive fire code compliance and ensure safer communities. Fire Code professionals use TCE to efficiently manage and maximize the inspection, testing, and maintenance of fire protection systems by third party inspection companies. If you questions please contact Fire Marshal Jeff Fort at 816-628-4122.
